HOLT'S DYNAMITE ABOARD LINER

RUSSIANS HALT AUSTRIAN ARMY RAILROAD IS INTACT TO WARSAW

Petrograd Announces a
Check to Invaders at
Krasnik.

Vienna Report, How-
ever, Claims Victory
in Same Section

By Associated Press.
LONDON, July 7, 12:09 p. m.—
Petrograd asserts a distinct check has
been inflicted on the Austro-Hungarian
armies near Krasnik, in Southern Rus-
sian Poland, where the invaders are
threatening one of the most impor-
tant railroad connections with War-
saw. The claim directly contradicts
the Vienna official report, which
states the Russians have suffered a
defeat in this section. Otherwise, the
Russian and Austro-German reports
agree that quiet prevails along the re-
mainder of the Eastern front, where
for the first time in several weeks
the Austro-German armies have
ceased to win daily successes.
Italy keeps up her heavy battering
tactics against the Austro-Hungarian
positions along the Isonzo river. Vi-
enna reports particularly fierce but
fruitless attacks on the lower Isonzo
between Gorizia and the sea.
NEW WESTERN OFFENSIVE.
Rumors continue to reach London
from many scattered sources of a
great German offensive against the
western front, with Calais, on the
English channel, as the objective, but
actual reports from this war theater
show no more than the usual ac-
tivity.

General Sir Ian Hamilton's report
of the British landing at the Dard-
anelles has caused much comment in
the British press, which shows great
pride in the achievement of the allied
troops. This is not unshared with
criticism, however, of the strategy
which dictated the campaign. Lord
Northcliffe's newspapers are particu-
larly strong in denunciation of the
tactics which led to such fearful
slaughter. The Times, describing the
naval dash which preceded the land
operations, says it was a naval Bal-
aklava, and denounces the whole op-
erations, characterizing them as "un-
forgivable bungling."

ITALIAN ATTACK SUCCEEDS

By Associated Press.
UDINE, Italy, via Paris, July 7.—
The Italian attack in the Carso re-
gion has been successful, although
being carried on against territory
which is full of caverns, grottoes and
crevasses. A report telling of the
capture by the Italians of 900 prison-
ers in two days on a front of five or

Gasoline Drops to 11 Cents; Slow Sale

SAN FRANCISCO, July 7.—The
price of gasoline dropped to 11 cents
today.
The Standard Oil men declare that
the low price is due to overproduc-
tion and poor markets.
The war has curtailed the market
enormously, say the men at 200 Bush
street, where the price of gasoline is
fixed. That is the Standard Oil build-
ing.
On the other hand, the production
has never been so heavy before, say the
Standard Oil directors.
The price has been 11½ cents for a
long time.

GREAT CONVENTION OF BAPTIST YOUNG PEOPLE COMMENCES TONIGHT

Advance Guard of Delegates Arrives by Special
Trains From East

Several special trains, pulling into
Oakland this morning, brought in the
first of the delegates to the big inter-
national convention of the Baptist
Young People's Union, which tonight
opens the convention in conjunction
with the session of the Pacific Coast
Baptist Young People's Societies.
All morning the headquarters of the
convention at the Key Route Inn were
busy, as registrations poured in, and
at the Auditorium a force of
workmen and committee members
was active on the last details of the
preparations for the great gathering.
Fully 2000 delegates from other
cities will arrive in Oakland
before tomorrow morning, according
to the committee members, most of
these probably to arrive on trains
this afternoon. An information bu-
reau at registration headquarters, and
local committees, are at work see-
ing that all delegates gain accommo-
dation.
The great convention opens to-
night with the rendition in the Audi-
torium of Mendelssohn's oratorio,
"Elijah." This will be sung by a

NATIONAL LEADERS WILL PARTICIPATE

chorus of 350, under the direction of
Alexander T. Stewart, president of the
Alameda County Music Teachers As-
sociation, and will serve as the of-
ficial opening of the big meeting. As-
tomorrow morning on business meet-
ings will be held by the convention
closes July 11.
The delegates of the Baptist denomina-
tion from all parts of the United
States will be among the officers,
speakers and delegates of the con-
vention. Rev. Frank L. Anderson,
president, is expected to arrive from
Chicago. H. B. Oggood of Chi-
cago, chairman of the board of man-
agers, is already at the Key Route
Inn headquarters, and Rev. W. M.
Chalmers of Philadelphia, general
secretary, has also arrived. The other
officers expected before the evening
session include H. G. Baldwin of
Cleveland, O., chairman of the ex-
ecutive committee; Rev. W. L. Clapp,
of Waterloo, Ia., secretary of the

OFFICIALDOM TO WELCOME VISITORS

executive committee; Albert D. Hen-
derson, Chicago, treasurer, and Rev.
F. G. Detweiler, of Dayton, O., junior
secretary.
The headquarters at the Key
Route Inn today were in charge of
the local committees. Under the di-
rection of Rev. F. I. Drexler, the re-
ception committee assisted at the in-
formation bureau, and Rev. J. M.
Heady's committee on badges and
such details also was on hand. The
chairman of the general committee,
Rev. William Keeney Townner, was
at headquarters practically all day, and
Vice-President G. Earle Lindsey was
also on the reception force during the
afternoon.
The oratorio tonight will be an
event notable in Alameda county's
musical history. Directed by Alex-
ander Stewart, the great chorus will
sing the full composition. The solo-

Lloyd-George Forbids Exportation of Metal

By Associated Press.
LONDON, July 7, 4:42 p. m.—Steps
have been taken by British authori-
ties to prevent the further exportation
from Great Britain of lead, cop-
per, antimony, nickel or any other
metal necessary in the manufacture
of munitions of war. Announcement
to this effect was made by Munitions
Minister Lloyd-George in the House
of Commons this afternoon.

New Japan-Russian Alliance Imminent

HONOLULU, July 7.—A new
alliance between Japan and Russia
is reported by Tokio dispatches to
local Japanese papers to be immin-
ent. Japanese received today say that
the Kaiser's statement yesterday
in completing details of the reported
alliance and that it is in nearly final
form.

"MILLION DOLLAR MOTHER" IN COURT

SAN FRANCISCO, July 7.—In the cur-
rent case of Police George E. Jones
of Burlingame, Mrs. Edith Ames, known
as the "Million Dollar Mother," appeared
before Judge John T. Sweeney shortly
after noon today and was released on a
court on furnishing a \$2000 bond. Mrs.
Ames, who is accused by Giles J. Gibb
and Louis L. Sullivan of Los Angeles, of
traveling south for her leisure and will
appear in court there. The two men claim
that Mrs. Ames threatened them with a
revolver in attempting to make Sullivan

WILSON NOT TO YIELD RIGHTS

Kaiser's Informal Pro-
posal of Compromise
Is Pondered

Gerard Awaits Instruc-
tions on Negotiations
Over Sea War

WASHINGTON, July 7.—It
was officially stated late today
that no reply had as yet been
made to Ambassador Gerard's in-
quiry for instructions concerning
the draft of the German reply to
the American note on submarine
warfare, but it was indicated that
either tonight or tomorrow a
message would be sent to him
outlining the position he should
take.

By Associated Press.
WASHINGTON, July 7.—Further
messages from Ambassador Gerard
were today transmitted to President
Wilson at Cornish, N. H., outlining
the point of view of the German gov-
ernment on submarine warfare as
embodied in a tentative draft of the
German note to the last American
note.
The dispatches tended to show that
Germany is anxious to bring about a
compromise on the question of her
submarine campaign, and there were
indications in official quarters that
the proposals in their present form
are not acceptable to the United
States. Just what means would be
adopted to inform Germany of the
disapproval of the United States is
not apparent. It is believed, however,
that Ambassador Gerard will be in-
structed within a day or two to make
clear in advance of the receipt of the
formal and final copy of the German
note that he is unable to make any
comment.

HOPE IN SITUATION.
Although from press dispatches
and other sources, it appears that the
German proposals were unsatisfac-
tory, the situation was not regarded
in well-informed quarters as hope-
less, much encouragement being
drawn from the fact that a tentative
draft of the note was submitted to
the American ambassador. This, it
was believed, indicated that the
preliminary draft was not satisfac-
tory there might be changes made
designed to meet the American point
of view on submarine warfare.
It was believed that President Wil-
son would today direct Secretary
Lansing to instruct Ambassador
Gerard respecting the proposals al-
ready made.

PRESIDENT INSISTENT ON ORIGINAL DEMAND

CORNISH, N. H., July 7.—Presi-
dent Wilson today, before him
dispatches from Secretary Lansing
transmitting information received
from Ambassador Gerard at Berlin,
outlining informally suggestions which
Germany is anxious to incorporate in
her next note on submarine warfare,
but about which she first wants to
sound out the United States.
Final instructions as to what Am-
bassador Gerard shall make to the
Berlin foreign office have not yet been
sent to Secretary Lansing by the Presi-
dent, but he is giving serious con-
sideration to the question, realizing
that the success of the entire negotia-
tions with Germany probably hangs
in the balance.

ADMIRALS IN DISPUTE CONCERNING U. S. NOTE

By Associated Press.
BERLIN, via London, July 7.—
Count von Reventlow, military writer
of the Tages Zeitung, doubts two
columns to attacking Admiral von
Troppe for the admiral's article

Germany's submarine warfare against
British commerce. Count von Revent-
low says he read the article "with

(Continued on Page 2, Col. 7)

TERROR IN MEXICAN CAPITAL

Reports of Disaster and
Battles Increase
Anxiety

Scenes of Riot and Un-
lawfulness Are
Incessant

By Associated Press.
MEXICO CITY, July 7.—For the last
four days this city has been a prey to
anxiety and a general sense of insecurity
prevails. Reports of great battles along
a front extending over some fifteen miles
are published daily in revolution "extras,"
which every one reads and no one be-
lieves.
Just what caused the forces of Zapata
and Villa to change their minds after
having slipped the government's grasp
and the treasury funds to Cuernavaca,
preparatory to attacking the capital, is
not known. That there has been some
fighting between the advance guards of
the Carranza forces and those of Za-
pata and Villa at Barrios and Cerro
Gordo is certain, but it is believed here
that the importance of the engagements
have been greatly exaggerated.
The bulk of the defending army is
lying in street cars, which are strung
out in a long line between the suburbs of
Mexico and San Angel. These cars,
numbering fifty-nine, occupy about a
mile of track along a road leading to
the city. Carranza's ultimate desti-
nation of the defending army in the
event, they are driven from this city.
These cars are on the opposite side of the
city to that which is being attacked.

POLICE SWEEP ASIDE.
The police force of the city has been
swept aside so far as practical protection
is concerned, and although gendarmes
are seen on post, as usual, any one wearing
what approaches a military uniform is
suppressed. This was brought home to the
British consul general here, E. W. P.
Thurston, the day before yesterday, when
he was compelled, at the point of rifles,
to carry a heavy load of soldiers about
the city in his automobile and was almost
forced to be an accomplice in a jail de-
livery.

Mr. Thurston was taking his morning
drive when the soldiers halted and board-
ed his car. After joy-riding about the
city, they finally caused the chauffeur
to drive to the penitentiary, where a gen-
eral break was attempted by them.
During the confusion, the British lega-
tion was notified, the men arrested, and
the car returned to the consul. The car
flew the British flag at the time of the
assault. The authorities have promised
to execute the soldiers in this case.
All foreigners owning cars are in the
habit of flying the flag of their nations,
on the hood of the machine. Despite
this, the seizing and stealing of cars has
become so general that many have now
risk riding. All of the banks and nearly
all of the larger commercial establish-
ments have remained closed since the
forces of Carranza appeared on the city.

SHORTAGE OF FOODSTUFFS

Today the shortage of foodstuffs be-
came so serious that rioting was avoided
only by the presence of troops, who fired
over the heads of the mobs, in one in-
stance the soldiers fired low, killing a
number of women. It is estimated that

\$200,000 Munitions Are Lost in Cruiser

By Associated Press.
BERLIN, July 7, by wireless to
Saville, N. Y.—A dispatch from Con-
stantinople to the Overseas News
Agency announcing the sinking of the
French auxiliary cruiser Carthage
off Cape Helles at the tip of the
Gallipoli peninsula, by a German sub-
marine, says that the vessel carried
war material valued at more than
\$200,000.
The French minister of marine, on
July 5, announced that the steamer
Carthage had been torpedoed and
sunk by a German submarine on July
4. Sixty-six members of the crew
were saved. Six others were missing.

(Continued on Page 2, Col. 5)

WARNINGS OF DANGER SENT BY WIRELESS

Set Machinery for Terrific Ex-
plosion on Saxonia or the
Philadelphia

NEW YORK, July 7.—The dead hand of Frank Holt, assassin,
bomb-maker and alleged wife murderer, reached out over the At-
lantic today and menaced with dynamite attacks two trans-
Atlantic liners with nearly 1000 men, women and children
aboard.

Somewhere on the ocean, Holt wrote to his wife, the liner Sax-
onia or the Philadelphia, he was not sure which, would be de-
stroyed today. A dynamite bomb containing thirty pounds of
explosive which Holt is known to have received, and which has
not been accounted for, is believed by the police to be the means
Holt had chosen to destroy the ship.

While Holt lay today a suicide in his cell at Mineola, Long Is-
land, where he was taken after his attempted assassination of J. P.
Morgan, the wireless crackled a warning over the Atlantic
telling of his threat to blow up a ship; and the mystery of his
life was cleared away with his positive identification as Erich
Muentzer, the alleged wife murderer, who fled Harvard Universi-
ty in 1906.

Nothing was more dramatic in the last few crowded days of
Holt's life than the warning of destruction uncovered after his
death. His confession that he placed the bomb in the capitol at
Washington last Friday; his attempted assassination of J. P.
Morgan; the growing belief that he was Erich Muentzer, culmi-
nating today in his positive identification—in death—as Muen-
ter, and his sensational suicide by leaping twenty feet from the
top of his cell to the floor; these formed a series of events to
which the threatened destruction of the Philadelphia or the Sax-
onia fitted as a startling climax.

PHILADELPHIA QUICK TO REPLY

The powerful wireless stations of the Navy Department were
enlisted in the efforts to prevent the threatened disaster at sea.
In answer to the warning there was received today a message
from the captain of the Philadelphia which said that everything
aboard had been identified and that all was well. The Saxonia
had not replied. Her failure to do so was attributed to the weak-
ness of her wireless batteries which could not, it was thought,
span the distance from mid-ocean to shore without delay.
The Saxonia has 324 passengers aboard, of whom 115 are in
the first cabin, 205 in the second and 200 in the steerage.
The Cunard line and the American line also endeavored to
reach the steamers by wireless. At both offices it was said that
it would be practically impossible for any one to pass the many
lines of guards at the piers and to place explosives aboard the
ships. The Cunard line stated that there were six lines of guards
protecting its vessels from intruders.

Three ships sailing from this port to Havre and reaching there
last May, it was learned from an authoritative source today, were
found to have unexploded bombs aboard, the missiles having
been placed on the ships in this city before sailing.

In Holt's letter to his wife, he advised her to watch newspa-
pers of July 7th, today, and told her that she would see in those
papers just what he had done.

CAUTIONS WIFE TO SECRECY

"Steamers leaving New York July 3d will be destroyed in mid-
ocean by an explosion," Holt is quoted as having written. Or,
the margin of the letter there was a penciled admonition to his
wife to say nothing about what he had written.
The fact that such a letter had been written by Mr. Morgan's
assassin presumably prior to his attempt on Mr. Morgan's life,
was known to the police at 9 o'clock yesterday morning, but no
public announcement was made of it until today. The first word
of his letter came from Glen Cove. Its contents were divulged
by a man who had talked with Holt in his cell for a long time
yesterday. This man refused to permit the use of his name, but
because of his standing there was no doubt as to the authentic-
ity of his assertions. The text of Holt's letter telegraphed to the
Navy Department was as follows:

"A steamer leaving New York for Liverpool should sink, God
willing, on the 7th. It is the Philadelphia or the Saxonia, but I
am not quite sure, as these left on the second or third."
On the margin of the letter was written: "Tear this off until
after this happens."

FLASHED BY RADIO TO SHIPS

The substance of Holt's letter was sent by radio to the com-
manders of the two vessels, as well as the department's report
that it had been unable to verify that explosives had been put
aboard one ship or the other. Two other trans-Atlantic liners
left New York about the same time and navy officials expected
that they also would pick up the message and make investiga-
tions. The vague nature of Holt's message made it possible, of-
ficials thought, that some steamer other than those he named,
had been marked for destruction.

A copy of Holt's letter also reached the navy from Superin-
tendent Pullman of the Washington police, who received it from
Jose E. Cockrell of Dallas. It was transmitted with the state-
ment that Mrs. Holt and her father wanted the State Depart-
ment to know what it contained.

Secretary Daniels denied a report that the navy sent a fast
cruiser to overtake the Saxonia or the Philadelphia. The secre-
tary said that none had been ordered and there was no plan to
send one.

The dynamite with which Holt intended, it is believed, to de-
stroy the Saxonia and the Philadelphia, was a part of a shipment
of 100 pounds received by Holt recently at Syosset, Long Island,

(Continued on Page 2, Cols. 1-2)

SEVERAL SURE THAT HOLT WAS MUELTNER

JURY FINDS MORGAN ASSAILANT'S DEATH WAS DUE TO FALL

(Continued From Page 1)

under the alias of C. Hendricks. Seventy pounds of the dynamite has been accounted for. Three pounds were taken to Washington for the bomb exploded in the capitol; the remaining sixty-seven pounds were found last night in a trunk in this city.

NO TRACE OF MISSING EXPLOSIVE

Police search for the other thirty pounds of the shipment had uncovered no trace of it at noon today. It was possible, the police said, that this thirty pounds was aboard the two steamers. The wireless warning, in the case of the Philadelphia, resulted in a thorough search at sea of the Philadelphia's cargo, it was inferred from the message received from the steamer's captain. The bomb, if any was aboard, was not found.

Detectives examined all the left-over packages on the piers of the American and Canadian lines today, but none of them seemed to tally with the description of the dynamite bomb they were working on. The police do not think the bomb, if it was sent, was despatched by parcel post.

The police learned today that Holt had bought 100 fulminating caps, 100 feet of fuse, 100 electrical explosive caps and 200 sticks of dynamite from a powder company here. This order was delivered to Holt at Central Park, Long Island, on June 29th.

It was ascertained today that Holt had left Ithaca on June 8th with the sulphuric acid that he used in the bomb that he exploded at the capitol at Washington. The acid was purchased in an Ithaca pharmacy.

Two of the three vessels menaced by bombs, it was learned, were the British steamships Bankdale, which sailed from New York May 7th for Havre, and Lord Erne, which sailed April 29th for the same destination.

LEAP FROM DOOR CAUSE OF DEATH

By Associated Press.

NEW YORK, July 7.—Frank Holt, who shot J. P. Morgan, lay dead today in an undertaking establishment at Hempstead, L. I., and the New York police had in their possession his trunk containing 134 half-pound sticks of dynamite, with which he believed he had planned to wreck public buildings in New York and other cities.

An autopsy early today established the fact that Holt committed suicide by leaping from the top of his cell door in the Mineola, L. I., jail. Walter R. Jones, the Mineola coroner, in the statement after an autopsy had been performed by the prison physician. He said: "Holt came to his death by a compound fracture of the skull and cerebral hemorrhage caused by a fall."

SEEK OTHER DYNAMITE

The authorities of New York county today in a painstaking search for more than 25 pounds of dynamite known to have been delivered to and accounted for by Holt, the assailant of J. P. Morgan, the man who set off the bomb in the United States capitol last Friday, and who committed suicide during the night by jumping 30 feet from an iron bar on the side of his cell in the floor.

In the belief that the missing explosive might have been placed aboard a steamship leaving this port prior to last Saturday, a warning by wireless was spread over the Atlantic during the night by plants along the eastern seaboard.

The trunk found last night in a storage room above a livery stable and garage on West Thirty-eighth street, in New York city, contained 124 sticks—67 pounds—out of 200 sticks of dynamite known to have been shipped to and received by Holt under the alias of C. Hendricks at Stoneman, L. I., recently. Six sticks were used, it seemed established today, by Holt when he went to Washington. Three of these sticks of dynamite were used, according to Holt's statement, in making the bomb placed in the capitol; the other three sticks were found in a suitcase on the lawn of J. P. Morgan's estate.

This would leave 60 sticks, or 30 pounds of the explosive, unaccounted for. Although Holt was quoted as saying that he had used 60 sticks in his experiments in the house he rented at Central Park, L. I., this statement was not believed. Nor did the condition of the premises at Central Park indicate that the dynamite had been used, although it was believed possible that Holt might have destroyed several sticks in his experiments there.

Where the remainder of this shipment was engaged, practically the entire attention of the district attorney's detectives today. Although the autopsy performed on Holt's body early today by Dr. Guy Cleggman established definitely that his death was due to a fractured skull, Walter R. Jones, the coroner, said that he would hold an inquest.

The Doctor Says

"Avoid Heavy Foods During Warm Weather"

It has been the experience of almost everyone that overeating, or indulging in rich or heavy foods during the hot summer months causes sluggishness, even if permanent injury is not the result.

To feel bright and well in warm weather, keep the blood cool by proper dieting. We do not mean by this that you are to deny yourself nourishment. Food for it is during this period that most nourishment is needed; but avoid heavy, sticky foods; and eat very little meat.

There is a prepared breakfast food called "FORCE" that the makers claim is the "best balanced" food for hot weather that it is possible to produce. "FORCE" is made from whole wheat, scientifically cooked and blended with barley malt; then rolled, toasted and flaked.

If you want a delicious breakfast, try "FORCE" with berries and cream. No only delicious, but satisfying. Satisfying and nourishing. Don't worry about the children not eating enough—give them "FORCE." It's made for them, and they'll like it. For more good grocers, advertise.

GERMAN ATTACK ON CALAIS, FEAR

Rumors Reach London of New Drive Prepared in West.

(Continued From Page 1)

Paris, July 7.—The French war department gave out the following statement today of recent operations in the Dardanelles: "On the 5th of July the Turks delivered a general attack, the most important that they have undertaken since their efforts in the early days of May. Their purpose was to drive us into the sea. "At 4 o'clock in the morning a very intense artillery fire was opened on our first lines as well as on the zone behind these lines occupied by French and British troops. The enemy subsequently endeavored to deliver several infantry attacks, but not one was successful in coming as far as our trenches. Decimated by our machine guns and our rifles, most of our assailants never left the battlefield. During this action batteries of the enemy on the Asiatic coast fired without interruption. A Turkish cruiser also took part in the engagement. At 10 o'clock the enemy bombarded our lines. "At the end of the day a group of about fifteen British and French aviators flew over the Turkish aerodrome at Chanak, threw down several bombs and struck the principal hangar with a big bomb."

TURKS LOSE GREAT BATTLE

By Associated Press.

PARIS, July 7, 2:35 p. m.—The French war department gave out the following statement today of recent operations in the Dardanelles: "On the 5th of July the Turks delivered a general attack, the most important that they have undertaken since their efforts in the early days of May. Their purpose was to drive us into the sea. "At 4 o'clock in the morning a very intense artillery fire was opened on our first lines as well as on the zone behind these lines occupied by French and British troops. The enemy subsequently endeavored to deliver several infantry attacks, but not one was successful in coming as far as our trenches. Decimated by our machine guns and our rifles, most of our assailants never left the battlefield. During this action batteries of the enemy on the Asiatic coast fired without interruption. A Turkish cruiser also took part in the engagement. At 10 o'clock the enemy bombarded our lines. "At the end of the day a group of about fifteen British and French aviators flew over the Turkish aerodrome at Chanak, threw down several bombs and struck the principal hangar with a big bomb."

BATTLES ALONG FRONTIER

By Associated Press.

UDINE, July 7, via Paris.—The fighting along the Austrian frontier continues with uninterrupted violence, consisting chiefly of artillery duels with heavy guns. Especially severe are the battles around the Predil Pass and Malborghetto forts, where the Italians are attacking in an attempt to open a way to the interior of Austria. Just as the Carso region is the gateway to Trieste.

FRENCH BOMBARD TOWN

By Associated Press.

BRUSSELS, July 7, by wireless to Sarville.—The French armored cruiser Jeanne d'Arc, according to the Overseas News Agency, has again bombarded the Turkish town of Alexandretta on the Gulf of Iskanderun. The Turkish authorities of the dispatch refused to hand down the German flag flying over the consulate and it was shot down by the French warship.

Germany to Smother Belgian Patriotism

By Associated Press.

BRUSSELS, July 7, 11:30 a. m.—An order has been issued by General von Bissing, German Governor of Belgium, providing a year's imprisonment for school teachers, directors or inspectors who refuse to sign a letter of effect anti-German actions or statements in their teaching or in other school exercises.

Charges Trio With Black Hand Threats

By Associated Press.

LONG BEACH, Cal., July 7.—Domenico Laurecchia, a capitalist, who paid several hundred dollars last year to "Black Hand" extortioners, caused the arrest today of three men, John and Ben Riccio, in connection with an alleged new plot to extort \$1000. A trap was laid for the three men when they were seen today of effect anti-German actions or statements in their teaching or in other school exercises.

Dies, a Victim of Another Man's Fright

By Associated Press.

LONG BEACH, July 7.—Alejandro Banderas, a rancher, died today, a victim of another man's fright. His friend, Lafayette Sabala, was examining an automatic pistol when the weapon suddenly discharged a bullet. This so frightened Sabala that he could not move his finger from the trigger until three more shots were fired. All entered the body of Banderas.

Youthful, Wrinkleless Skin Easy to Have

You who desire to retain a youthful appearance will do well to make the acquaintance of the simple, but valuable, prescriptions here given.

To make an effective wrinkle remover, use an ounce of powdered salicylic acid and a half pint of water. Rub the face with the solution immediately every wrinkle is affected. It acts wonderfully on the skin, removing the old, faded, and discolored skin, and leaving the new, youthful skin in its place. To get rid of aged, faded, freckled or discolored skin, use a mixture of one part of salicylic acid to ten parts of water. Rub the face with this mixture. It will remove the old, faded, and discolored skin, and leaving the new, youthful skin in its place. To get rid of aged, faded, freckled or discolored skin, use a mixture of one part of salicylic acid to ten parts of water. Rub the face with this mixture. It will remove the old, faded, and discolored skin, and leaving the new, youthful skin in its place.

BOMBS FOUND ON SEVERAL STEAMERS

New York-to-Havre Liners Just Escape Destruction Several Times.

NEW YORK, July 7.—It became known today in connection with the placing of explosives aboard a liner by Frank Holt, that bombs have on several occasions been found unexploded on board steamers from here to Havre.

In one case, it was said, the bombs were found in the hold of a steamer. In another case, the bombs were found in the hold of a steamer. In a third case, the bombs were found in the hold of a steamer. In a fourth case, the bombs were found in the hold of a steamer. In a fifth case, the bombs were found in the hold of a steamer. In a sixth case, the bombs were found in the hold of a steamer. In a seventh case, the bombs were found in the hold of a steamer. In an eighth case, the bombs were found in the hold of a steamer. In a ninth case, the bombs were found in the hold of a steamer. In a tenth case, the bombs were found in the hold of a steamer. In an eleventh case, the bombs were found in the hold of a steamer. In a twelfth case, the bombs were found in the hold of a steamer. In a thirteenth case, the bombs were found in the hold of a steamer. In a fourteenth case, the bombs were found in the hold of a steamer. In a fifteenth case, the bombs were found in the hold of a steamer. In a sixteenth case, the bombs were found in the hold of a steamer. In a seventeenth case, the bombs were found in the hold of a steamer. In an eighteenth case, the bombs were found in the hold of a steamer. In a nineteenth case, the bombs were found in the hold of a steamer. In a twentieth case, the bombs were found in the hold of a steamer. In a twenty-first case, the bombs were found in the hold of a steamer. In a twenty-second case, the bombs were found in the hold of a steamer. In a twenty-third case, the bombs were found in the hold of a steamer. In a twenty-fourth case, the bombs were found in the hold of a steamer. In a twenty-fifth case, the bombs were found in the hold of a steamer. In a twenty-sixth case, the bombs were found in the hold of a steamer. In a twenty-seventh case, the bombs were found in the hold of a steamer. In a twenty-eighth case, the bombs were found in the hold of a steamer. In a twenty-ninth case, the bombs were found in the hold of a steamer. In a thirtieth case, the bombs were found in the hold of a steamer. In a thirty-first case, the bombs were found in the hold of a steamer. In a thirty-second case, the bombs were found in the hold of a steamer. In a thirty-third case, the bombs were found in the hold of a steamer. In a thirty-fourth case, the bombs were found in the hold of a steamer. In a thirty-fifth case, the bombs were found in the hold of a steamer. In a thirty-sixth case, the bombs were found in the hold of a steamer. In a thirty-seventh case, the bombs were found in the hold of a steamer. In a thirty-eighth case, the bombs were found in the hold of a steamer. In a thirty-ninth case, the bombs were found in the hold of a steamer. In a fortieth case, the bombs were found in the hold of a steamer. In a forty-first case, the bombs were found in the hold of a steamer. In a forty-second case, the bombs were found in the hold of a steamer. In a forty-third case, the bombs were found in the hold of a steamer. In a forty-fourth case, the bombs were found in the hold of a steamer. In a forty-fifth case, the bombs were found in the hold of a steamer. In a forty-sixth case, the bombs were found in the hold of a steamer. In a forty-seventh case, the bombs were found in the hold of a steamer. In a forty-eighth case, the bombs were found in the hold of a steamer. In a forty-ninth case, the bombs were found in the hold of a steamer. In a fiftieth case, the bombs were found in the hold of a steamer. In a fifty-first case, the bombs were found in the hold of a steamer. In a fifty-second case, the bombs were found in the hold of a steamer. In a fifty-third case, the bombs were found in the hold of a steamer. In a fifty-fourth case, the bombs were found in the hold of a steamer. In a fifty-fifth case, the bombs were found in the hold of a steamer. In a fifty-sixth case, the bombs were found in the hold of a steamer. In a fifty-seventh case, the bombs were found in the hold of a steamer. In a fifty-eighth case, the bombs were found in the hold of a steamer. In a fifty-ninth case, the bombs were found in the hold of a steamer. In a sixtieth case, the bombs were found in the hold of a steamer. In a sixty-first case, the bombs were found in the hold of a steamer. In a sixty-second case, the bombs were found in the hold of a steamer. In a sixty-third case, the bombs were found in the hold of a steamer. In a sixty-fourth case, the bombs were found in the hold of a steamer. In a sixty-fifth case, the bombs were found in the hold of a steamer. In a sixty-sixth case, the bombs were found in the hold of a steamer. In a sixty-seventh case, the bombs were found in the hold of a steamer. In a sixty-eighth case, the bombs were found in the hold of a steamer. In a sixty-ninth case, the bombs were found in the hold of a steamer. In a seventieth case, the bombs were found in the hold of a steamer. In a seventy-first case, the bombs were found in the hold of a steamer. In a seventy-second case, the bombs were found in the hold of a steamer. In a seventy-third case, the bombs were found in the hold of a steamer. In a seventy-fourth case, the bombs were found in the hold of a steamer. In a seventy-fifth case, the bombs were found in the hold of a steamer. In a seventy-sixth case, the bombs were found in the hold of a steamer. In a seventy-seventh case, the bombs were found in the hold of a steamer. In a seventy-eighth case, the bombs were found in the hold of a steamer. In a seventy-ninth case, the bombs were found in the hold of a steamer. In an eightieth case, the bombs were found in the hold of a steamer. In an eighty-first case, the bombs were found in the hold of a steamer. In an eighty-second case, the bombs were found in the hold of a steamer. In an eighty-third case, the bombs were found in the hold of a steamer. In an eighty-fourth case, the bombs were found in the hold of a steamer. In an eighty-fifth case, the bombs were found in the hold of a steamer. In an eighty-sixth case, the bombs were found in the hold of a steamer. In an eighty-seventh case, the bombs were found in the hold of a steamer. In an eighty-eighth case, the bombs were found in the hold of a steamer. In an eighty-ninth case, the bombs were found in the hold of a steamer. In a ninetieth case, the bombs were found in the hold of a steamer. In a ninety-first case, the bombs were found in the hold of a steamer. In a ninety-second case, the bombs were found in the hold of a steamer. In a ninety-third case, the bombs were found in the hold of a steamer. In a ninety-fourth case, the bombs were found in the hold of a steamer. In a ninety-fifth case, the bombs were found in the hold of a steamer. In a ninety-sixth case, the bombs were found in the hold of a steamer. In a ninety-seventh case, the bombs were found in the hold of a steamer. In a ninety-eighth case, the bombs were found in the hold of a steamer. In a ninety-ninth case, the bombs were found in the hold of a steamer. In a hundredth case, the bombs were found in the hold of a steamer. In a hundred-first case, the bombs were found in the hold of a steamer. In a hundred-second case, the bombs were found in the hold of a steamer. In a hundred-third case, the bombs were found in the hold of a steamer. In a hundred-fourth case, the bombs were found in the hold of a steamer. In a hundred-fifth case, the bombs were found in the hold of a steamer. In a hundred-sixth case, the bombs were found in the hold of a steamer. In a hundred-seventh case, the bombs were found in the hold of a steamer. In a hundred-eighth case, the bombs were found in the hold of a steamer. In a hundred-ninth case, the bombs were found in the hold of a steamer. In a hundred-tenth case, the bombs were found in the hold of a steamer. In a hundred-eleventh case, the bombs were found in the hold of a steamer. In a hundred-twelfth case, the bombs were found in the hold of a steamer. In a hundred-thirteenth case, the bombs were found in the hold of a steamer. In a hundred-fourteenth case, the bombs were found in the hold of a steamer. In a hundred-fifteenth case, the bombs were found in the hold of a steamer. In a hundred-sixteenth case, the bombs were found in the hold of a steamer. In a hundred-seventeenth case, the bombs were found in the hold of a steamer. In a hundred-eighteenth case, the bombs were found in the hold of a steamer. In a hundred-nineteenth case, the bombs were found in the hold of a steamer. In a hundred-twentieth case, the bombs were found in the hold of a steamer. In a hundred-twenty-first case, the bombs were found in the hold of a steamer. In a hundred-twenty-second case, the bombs were found in the hold of a steamer. In a hundred-twenty-third case, the bombs were found in the hold of a steamer. In a hundred-twenty-fourth case, the bombs were found in the hold of a steamer. In a hundred-twenty-fifth case, the bombs were found in the hold of a steamer. In a hundred-twenty-sixth case, the bombs were found in the hold of a steamer. In a hundred-twenty-seventh case, the bombs were found in the hold of a steamer. In a hundred-twenty-eighth case, the bombs were found in the hold of a steamer. In a hundred-twenty-ninth case, the bombs were found in the hold of a steamer. In a hundred-thirtieth case, the bombs were found in the hold of a steamer. In a hundred-thirty-first case, the bombs were found in the hold of a steamer. In a hundred-thirty-second case, the bombs were found in the hold of a steamer. In a hundred-thirty-third case, the bombs were found in the hold of a steamer. In a hundred-thirty-fourth case, the bombs were found in the hold of a steamer. In a hundred-thirty-fifth case, the bombs were found in the hold of a steamer. In a hundred-thirty-sixth case, the bombs were found in the hold of a steamer. In a hundred-thirty-seventh case, the bombs were found in the hold of a steamer. In a hundred-thirty-eighth case, the bombs were found in the hold of a steamer. In a hundred-thirty-ninth case, the bombs were found in the hold of a steamer. In a hundred-fortieth case, the bombs were found in the hold of a steamer. In a hundred-forty-first case, the bombs were found in the hold of a steamer. In a hundred-forty-second case, the bombs were found in the hold of a steamer. In a hundred-forty-third case, the bombs were found in the hold of a steamer. In a hundred-forty-fourth case, the bombs were found in the hold of a steamer. In a hundred-forty-fifth case, the bombs were found in the hold of a steamer. In a hundred-forty-sixth case, the bombs were found in the hold of a steamer. In a hundred-forty-seventh case, the bombs were found in the hold of a steamer. In a hundred-forty-eighth case, the bombs were found in the hold of a steamer. In a hundred-forty-ninth case, the bombs were found in the hold of a steamer. In a hundred-fiftieth case, the bombs were found in the hold of a steamer. In a hundred-fifty-first case, the bombs were found in the hold of a steamer. In a hundred-fifty-second case, the bombs were found in the hold of a steamer. In a hundred-fifty-third case, the bombs were found in the hold of a steamer. In a hundred-fifty-fourth case, the bombs were found in the hold of a steamer. In a hundred-fifty-fifth case, the bombs were found in the hold of a steamer. In a hundred-fifty-sixth case, the bombs were found in the hold of a steamer. In a hundred-fifty-seventh case, the bombs were found in the hold of a steamer. In a hundred-fifty-eighth case, the bombs were found in the hold of a steamer. In a hundred-fifty-ninth case, the bombs were found in the hold of a steamer. In a hundred-sixtieth case, the bombs were found in the hold of a steamer. In a hundred-sixty-first case, the bombs were found in the hold of a steamer. In a hundred-sixty-second case, the bombs were found in the hold of a steamer. In a hundred-sixty-third case, the bombs were found in the hold of a steamer. In a hundred-sixty-fourth case, the bombs were found in the hold of a steamer. In a hundred-sixty-fifth case, the bombs were found in the hold of a steamer. In a hundred-sixty-sixth case, the bombs were found in the hold of a steamer. In a hundred-sixty-seventh case, the bombs were found in the hold of a steamer. In a hundred-sixty-eighth case, the bombs were found in the hold of a steamer. In a hundred-sixty-ninth case, the bombs were found in the hold of a steamer. In a hundred-seventieth case, the bombs were found in the hold of a steamer. In a hundred-seventy-first case, the bombs were found in the hold of a steamer. In a hundred-seventy-second case, the bombs were found in the hold of a steamer. In a hundred-seventy-third case, the bombs were found in the hold of a steamer. In a hundred-seventy-fourth case, the bombs were found in the hold of a steamer. In a hundred-seventy-fifth case, the bombs were found in the hold of a steamer. In a hundred-seventy-sixth case, the bombs were found in the hold of a steamer. In a hundred-seventy-seventh case, the bombs were found in the hold of a steamer. In a hundred-seventy-eighth case, the bombs were found in the hold of a steamer. In a hundred-seventy-ninth case, the bombs were found in the hold of a steamer. In a hundred-eightieth case, the bombs were found in the hold of a steamer. In a hundred-eighty-first case, the bombs were found in the hold of a steamer. In a hundred-eighty-second case, the bombs were found in the hold of a steamer. In a hundred-eighty-third case, the bombs were found in the hold of a steamer. In a hundred-eighty-fourth case, the bombs were found in the hold of a steamer. In a hundred-eighty-fifth case, the bombs were found in the hold of a steamer. In a hundred-eighty-sixth case, the bombs were found in the hold of a steamer. In a hundred-eighty-seventh case, the bombs were found in the hold of a steamer. In a hundred-eighty-eighth case, the bombs were found in the hold of a steamer. In a hundred-eighty-ninth case, the bombs were found in the hold of a steamer. In a hundred-ninetyth case, the bombs were found in the hold of a steamer. In a hundred-ninety-first case, the bombs were found in the hold of a steamer. In a hundred-ninety-second case, the bombs were found in the hold of a steamer. In a hundred-ninety-third case, the bombs were found in the hold of a steamer. In a hundred-ninety-fourth case, the bombs were found in the hold of a steamer. In a hundred-ninety-fifth case, the bombs were found in the hold of a steamer. In a hundred-ninety-sixth case, the bombs were found in the hold of a steamer. In a hundred-ninety-seventh case, the bombs were found in the hold of a steamer. In a hundred-ninety-eighth case, the bombs were found in the hold of a steamer. In a hundred-ninety-ninth case, the bombs were found in the hold of a steamer. In a two hundredth case, the bombs were found in the hold of a steamer. In a two hundred-first case, the bombs were found in the hold of a steamer. In a two hundred-second case, the bombs were found in the hold of a steamer. In a two hundred-third case, the bombs were found in the hold of a steamer. In a two hundred-fourth case, the bombs were found in the hold of a steamer. In a two hundred-fifth case, the bombs were found in the hold of a steamer. In a two hundred-sixth case, the bombs were found in the hold of a steamer. In a two hundred-seventh case, the bombs were found in the hold of a steamer. In a two hundred-eighth case, the bombs were found in the hold of a steamer. In a two hundred-ninth case, the bombs were found in the hold of a steamer. In a two hundred-tenth case, the bombs were found in the hold of a steamer. In a two hundred-eleventh case, the bombs were found in the hold of a steamer. In a two hundred-twelfth case, the bombs were found in the hold of a steamer. In a two hundred-thirteenth case, the bombs were found in the hold of a steamer. In a two hundred-fourteenth case, the bombs were found in the hold of a steamer. In a two hundred-fifteenth case, the bombs were found in the hold of a steamer. In a two hundred-sixteenth case, the bombs were found in the hold of a steamer. In a two hundred-seventeenth case, the bombs were found in the hold of a steamer. In a two hundred-eighteenth case, the bombs were found in the hold of a steamer. In a two hundred-nineteenth case, the bombs were found in the hold of a steamer. In a two hundred-twentieth case, the bombs were found in the hold of a steamer. In a two hundred-twenty-first case, the bombs were found in the hold of a steamer. In a two hundred-twenty-second case, the bombs were found in the hold of a steamer. In a two hundred-twenty-third case, the bombs were found in the hold of a steamer. In a two hundred-twenty-fourth case, the bombs were found in the hold of a steamer. In a two hundred-twenty-fifth case, the bombs were found in the hold of a steamer. In a two hundred-twenty-sixth case, the bombs were found in the hold of a steamer. In a two hundred-twenty-seventh case, the bombs were found in the hold of a steamer. In a two hundred-twenty-eighth case, the bombs were found in the hold of a steamer. In a two hundred-twenty-ninth case, the bombs were found in the hold of a steamer. In a two hundred-thirtieth case, the bombs were found in the hold of a steamer. In a two hundred-thirty-first case, the bombs were found in the hold of a steamer. In a two hundred-thirty-second case, the bombs were found in the hold of a steamer. In a two hundred-thirty-third case, the bombs were found in the hold of a steamer. In a two hundred-thirty-fourth case, the bombs were found in the hold of a steamer. In a two hundred-thirty-fifth case, the bombs were found in the hold of a steamer. In a two hundred-thirty-sixth case, the bombs were found in the hold of a steamer. In a two hundred-thirty-seventh case, the bombs were found in the hold of a steamer. In a two hundred-thirty-eighth case, the bombs were found in the hold of a steamer. In a two hundred-thirty-ninth case, the bombs were found in the hold of a steamer. In a two hundred-fortieth case, the bombs were found in the hold of a steamer. In a two hundred-forty-first case, the bombs were found in the hold of a steamer. In a two hundred-forty-second case, the bombs were found in the hold of a steamer. In a two hundred-forty-third case, the bombs were found in the hold of a steamer. In a two hundred-forty-fourth case, the bombs were found in the hold of a steamer. In a two hundred-forty-fifth case, the bombs were found in the hold of a steamer. In a two hundred-forty-sixth case, the bombs were found in the hold of a steamer. In a two hundred-forty-seventh case, the bombs were found in the hold of a steamer. In a two hundred-forty-eighth case, the bombs were found in the hold of a steamer. In a two hundred-forty-ninth case, the bombs were found in the hold of a steamer. In a two hundred-fiftieth case, the bombs were found in the hold of a steamer. In a two hundred-fifty-first case, the bombs were found in the hold of a steamer. In a two hundred-fifty-second case, the bombs were found in the hold of a steamer. In a two hundred-fifty-third case, the bombs were found in the hold of a steamer. In a two hundred-fifty-fourth case, the bombs were found in the hold of a steamer. In a two hundred-fifty-fifth case, the bombs were found in the hold of a steamer. In a two hundred-fifty-sixth case, the bombs were found in the hold of a steamer. In a two hundred-fifty-seventh case, the bombs were found in the hold of a steamer. In a two hundred-fifty-eighth case, the bombs were found in the hold of a steamer. In a two hundred-fifty-ninth case, the bombs were found in the hold of a steamer. In a two hundred-sixtieth case, the bombs were found in the hold of a steamer. In a two hundred-sixty-first case, the bombs were found in the hold of a steamer. In a two hundred-sixty-second case, the bombs were found in the hold of a steamer. In a two hundred-sixty-third case, the bombs were found in the hold of a steamer. In a two hundred-sixty-fourth case, the bombs were found in the hold of a steamer. In a two hundred-sixty-fifth case, the bombs were found in the hold of a steamer. In a two hundred-sixty-sixth case, the bombs were found in the hold of a steamer. In a two hundred-sixty-seventh case, the bombs were found in the hold of a steamer. In a two hundred-sixty-eighth case, the bombs were found in the hold of a steamer. In a two hundred-sixty-ninth case, the bombs were found in the hold of a steamer. In a two hundred-seventieth case, the bombs were found in the hold of a steamer. In a two hundred-seventy-first case, the bombs were found in the hold of a steamer. In a two hundred-seventy-second case, the bombs were found in the hold of a steamer. In a two hundred-seventy-third case, the bombs were found in the hold of a steamer. In a two hundred-seventy-fourth case, the bombs were found in the hold of a steamer. In a two hundred-seventy-fifth case, the bombs were found in the hold of a steamer. In a two hundred-seventy-sixth case, the bombs were found in the hold of a steamer. In a two hundred-seventy-seventh case, the bombs were found in the hold of a steamer. In a two hundred-seventy-eighth case, the bombs were found in the hold of a steamer. In a two hundred-seventy-ninth case, the bombs were found in the hold of a steamer. In a two hundred-eightieth case, the bombs were found in the hold of a steamer. In a two hundred-eighty-first case, the bombs were found in the hold of a steamer. In a two hundred-eighty-second case, the bombs were found in the hold of a steamer. In a two hundred-eighty-third case, the bombs were found in the hold of a steamer. In a two hundred-eighty-fourth case, the bombs were found in the hold of a steamer. In a two hundred-eighty-fifth case, the bombs were found in the hold of a steamer. In a two hundred-eighty-sixth case, the bombs were found in the hold of a steamer. In a two hundred-eighty-seventh case, the bombs were found in the hold of a steamer. In a two hundred-eighty-eighth case, the bombs were found in the hold of a steamer. In a two hundred-eighty-ninth case, the bombs were found in the hold of a steamer. In a two hundred-ninetyth case, the bombs were found in the hold of a steamer. In a two hundred-ninety-first case, the bombs were found in the hold of a steamer. In a two hundred-ninety-second case, the bombs were found in the hold of a steamer. In a two hundred-ninety-third case, the bombs were found in the hold of a steamer. In a two hundred-ninety-fourth case, the bombs were found in the hold of a steamer. In a two hundred-ninety-fifth case, the bombs were found in the hold of a steamer. In a two hundred-ninety-sixth case, the bombs were found in the hold of a steamer. In a two hundred-ninety-seventh case, the bombs were found in the hold of a steamer. In a two hundred-ninety-eighth case, the bombs were found in the hold of a steamer. In a two hundred-ninety-ninth case, the bombs were found in the hold of a steamer. In a two hundredth case, the bombs were found in the hold of a steamer. In a two hundred-first case, the bombs were found in the hold of a steamer. In a two hundred-second case, the bombs were found in the hold of a steamer. In a two hundred-third case, the bombs were found in the hold of a steamer. In a two hundred-fourth case, the bombs were found in the hold of a steamer. In a two hundred-fifth case, the bombs were found in the hold of a steamer. In a two hundred-sixth case, the bombs were found in the hold of a steamer. In a two hundred-seventh case, the bombs were found in the hold of a steamer. In a two hundred-eighth case, the bombs were found in the hold of a steamer. In a two hundred-ninth case, the bombs were found in the hold of a steamer. In a two hundred-tenth case, the bombs were found in the hold of a steamer. In a two hundred-eleventh case, the bombs were found in the hold of a steamer. In a two hundred-twelfth case, the bombs were found in the hold of a steamer. In a two hundred-thirteenth case, the bombs were found in the hold of a steamer. In a two hundred-fourteenth case, the bombs were found in the hold of a steamer. In a two hundred-fifteenth case, the bombs were found in the hold of a steamer. In a two hundred-sixteenth case, the bombs were found in the hold of a steamer. In a two hundred-seventeenth case, the bombs were found in the hold of a steamer. In a two hundred-eighteenth case, the bombs were found in the hold of a steamer. In a two hundred-nineteenth case, the bombs were found in the hold of a steamer. In a two hundred-twentieth case, the bombs were found in the hold of a steamer. In a two hundred-twenty-first case, the bombs were found in the hold of a steamer. In a two hundred-twenty-second case, the bombs were found in the hold of a steamer. In a two hundred-twenty-third case, the bombs were found in the hold of a steamer. In a two hundred-twenty-fourth case, the bombs were found in the hold of a steamer. In a two hundred-twenty-fifth case, the bombs were found in the hold of a steamer. In a two hundred-twenty-sixth case, the bombs were found in the hold of a steamer. In a two hundred-twenty-seventh case, the bombs were found in the hold of a steamer. In a two hundred-twenty-eighth case, the bombs were found in the hold of a steamer. In a two hundred-twenty-ninth case, the bombs were found in the hold of a steamer. In a two hundred-thirtieth case, the bombs were found in the hold of a steamer. In a two hundred-thirty-first case, the bombs were found in the hold of a steamer. In a two hundred-thirty-second case, the bombs were found in the hold of a steamer. In a two hundred-thirty-third case, the bombs were found in the hold of a steamer. In a two hundred-thirty-fourth case, the bombs were found in the hold of a steamer. In a two hundred-thirty-fifth case, the bombs were found in the hold of a steamer. In a two hundred-thirty-sixth case, the bombs were found in the hold of a steamer. In a two hundred-thirty-seventh case, the bombs were found in the hold of a steamer. In a two hundred-thirty-eighth case, the bombs were found in the hold of a steamer. In a two hundred-thirty-ninth case, the bombs were found in the hold of a steamer. In a two hundred-fortieth case, the bombs were found in the hold of a steamer. In a two hundred-forty-first case, the bombs were found in the hold of a steamer. In a two hundred-forty-second case, the bombs were found in the hold of a steamer. In a two hundred-forty-third case, the bombs were found in the hold of a steamer. In a two hundred-forty-fourth case, the bombs were found in the hold of a steamer. In a two hundred-forty-fifth case, the bombs were found in the hold of a steamer. In a two hundred-forty-sixth case, the bombs were found in the hold of a steamer. In a two hundred-forty-seventh case, the bombs were found in the hold of a steamer. In a two hundred-forty-eighth case, the bombs were found in the hold of a steamer. In a two hundred-forty-ninth case, the bombs were found in the hold of a steamer. In a two hundred-fiftieth case, the bombs were found in the hold of a steamer. In a two hundred-fifty-first case, the bombs were found in the hold of a steamer. In a two hundred-fifty-second case, the bombs were found in the hold of a steamer. In a two hundred-fifty-third case, the bombs were found in the hold of a steamer. In a two hundred-fifty-fourth case, the bombs were found in the hold of a steamer. In a two hundred-fifty-fifth case, the bombs were found in the hold of a steamer. In a two hundred-fifty-sixth case, the bombs were found in the hold of a steamer. In a two hundred-fifty-seventh case, the bombs were found in the hold of a steamer. In a two hundred-fifty-eighth case, the bombs were found in the hold of a steamer. In a two hundred-fifty-ninth case, the bombs were found in the hold of a steamer. In a two hundred-sixtieth case, the bombs were found in the hold of a steamer. In a two hundred-sixty-first case, the bombs were found in the hold of a steamer. In a two hundred-sixty-second case, the bombs were found in the hold of a steamer. In a two hundred-sixty-third case, the bombs were found in the hold of a steamer. In a two hundred-sixty-fourth case, the bombs were found in the hold of a steamer. In a two hundred-sixty-fifth case, the bombs were found in the hold of a steamer. In a two hundred-sixty-sixth case, the bombs were found in the hold of a steamer. In a two hundred-sixty-seventh case, the bombs were found in the hold of a steamer. In a two hundred-sixty-eighth case, the bombs were found in the hold of a steamer. In a two hundred-sixty-ninth case, the bombs were found in the hold of a steamer. In a two hundred-seventieth case, the bombs were found in the hold of a steamer. In a two hundred-seventy-first case, the bombs were found in the hold of a steamer. In a two hundred-seventy-second case, the bombs were found in the hold of a steamer. In a two hundred-seventy-third case, the bombs were found in the hold of a steamer. In a two hundred-seventy-fourth case, the bombs were found in the hold of a steamer. In a two hundred-seventy-fifth case, the bombs were found in the hold of a steamer. In a two hundred-seventy-sixth case, the bombs were found in the hold of a steamer. In a two hundred-seventy-seventh case, the bombs were found in the hold of a steamer. In a two hundred-se

BAPTIST YOUNG PEOPLE ARE WELCOMED TO CITY

Rev. W. W. Hamilton, and the closing address and valedictory service by Rev. W. S. Abernethy of Missouri.

THOSE IN CHARGE.
The officers of the Pacific Coast societies meeting with the international body are as follows:

President, Alexander K. Heron, Los Angeles, Calif.; Vice-presidents, J. C. Austin, Tenn. East, J. H. Hart, Seattle, Wash.; J. B. Travis, Stockton, Cal.; Secretary, J. P. Burton, Wilcox, 615 Claremont Drive, Pasadena, Cal.; Treasurer, Fred W. King, Seattle, Wash.; Corresponding Sec., W. W. Wadsworth, South Pasadena, Cal.; Secretary of Missions, Miss Marie Norgard, Tucson, Ariz.; Secretary Junior and Intermediate, Miss Irma Wilbur, Los Angeles; Secretary Educational, R. E. Crawford, Roseburg, Ore.

Board of Managers.—William H. Groat, chairman, 563 Thirty-sixth street, Oakland, Cal.
Term expiring 1917.—Brewster Adams, Reno, Nev.; R. K. Hopton, Greeley, Wyo.; Arthur J. Gatter, Los Angeles, Cal.; J. H. Hart, Seattle, Ore.; Lawrence R. Hobart, Oakland, Cal.

Term expiring 1916.—Henry Elliott, Jr., Seattle, Wash.; C. H. Hart, Seattle, Wash.; J. M. C. A. J.; J. B. Travis, Portland, Ore.; J. B. Fox, Los Angeles, Cal.; W. H. Groat, Oakland, Cal.

Term expiring 1915.—W. E. Pettibone, Great Falls, Ida.; P. H. Evans, Fayette, Ida.; J. Harvey Deere, Phoenix, Ariz.; L. S. Bowerman, Salt Lake City, Utah; A. J. Prosser, North Vancouver, B. C.

This organization was perfected to strengthen the bonds between the Baptist Young People, whether B. Y. P. U. or C. E., here on the coast.

The greater conventions were so far away that very few from the coast could attend. This organization has held the following conventions:

June 1-5, 1914. First Baptist Church, Oakland, Cal.
July 11-14, 1912. White Temple, Portland, Ore.
August 7-10, 1913. First Baptist Church, Seattle, Wash.
First Baptist Church and Temple Baptist Church, Los Angeles, Cal. July 2-5, 1914.

Many of the visiting delegates, after visiting the registration headquarters this morning, visited the Exposition. Word was received this afternoon that President Anderson had arrived at San Francisco and was visiting the fair. At 3:30, at the Key House Inn, the committee members from the East held an informal meeting, and the registration headquarters was systematized for the late rush of arrivals.

The Auditorium this morning, local committee members, under the leadership of J. H. Hart, prepared the stage, decorating the platform with flowers and placing seats for singers and the symphony orchestra that will under the direction of Hermann Marton, accompany the singers and furnish the orchestral settings to the oratorio, "Elijah," to be presented tonight.

We have the preparations well in hand," declared Rev. William Ketter, chairman of the Oakland general committee, "and tonight will see all in readiness."

Alexander Stewart, musical director of the oratorio, also announced preparations perfected today. The last rehearsal has been held and the orchestra is letter-perfect.

French Infantrymen Returning to Their Cantonment After Driving the Germans From Their Trenches in the Bois d'Ailly, Near St. Mihiel.

Thousands in Cities Greet Liberty Bell

By Associated Press.

ROCK ISLAND, July 7.—Three thousand citizens, headed by the mayor and city council, gathered at the depot when the Liberty Bell arrived on a special train today. The crowd sang "America" and Lieutenant Governor O'Hara, representing Governor Dunne, gave a brief address.

DAVENPORT, Ia., July 7.—The Liberty Bell was greeted by crowds at Albia, Mo., and here, Lieutenant Governor Harding of Iowa and four members of the governor's staff joined the Liberty Bell party at Davenport to escort the relic through Iowa.

Tomato Cans Conceal Contraband Whisky

PHOENIX, Ariz., July 7.—A lively demand for can-openers revealed to state officials today the latest scheme for violating the state prohibition law. Large quantities of cans have been found labeled tomatoes but containing whisky. These cans have found an extensive market, according to investigating officers, and a number of arrests are expected.

Federal Trade Board Will Visit Pacific

WASHINGTON, July 7.—The federal trade commission announced today a tour of the country for the purpose of continuing its foreign trade investigation. The commission will begin hearings in Chicago July 19 and will visit other points in the Middle West. Several weeks will be spent on the Pacific coast and on the return trip the commission will visit southwestern and southern cities.

COUNTY EQUALIZATION BOARD MEETS MONDAY

With the assessment rolls now in the hands of the Board of Equalization, that body will hear applications for reduction of assessments when it convenes next Tuesday. The rolls were turned over by Assessor Horner yesterday. As yet there have been no applications filed with Clerk J. C. Holland.

Most Beautiful Film Star at The Oakland

MYRTLE STEADMAN.

A baffling mystery in a lumber camp in the Alleghenies which drives an innocent young American into exile in the Argentine not only provides an absorbing drama, especially illumined as it is by the touching loyalty of a beautiful mountain hermit, but also embraces pictorial range, including everything from mountain forests to the splendid mansions and teeming docks of Buenos Aires, which makes the "Wild Olive," the feature attraction of the new Paramount Photo program, which starts today, a highwater mark in the history of big productions.

The leading role is taken by the most beautiful actress in motion pictures, Myrtle Steadman. Recently in a popular contest conducted by the New York Times, Miss Steadman won by a great majority the title of being the most beautiful and fascinating actress now appearing in motion pictures. "The Wild Olive," in which King, will be seen for four days, commencing today, on the same program with "Where Cowboys Is King."

GARRARD IS NAMED AGAIN AS MAYOR

RICHMOND, July 7.—Councilman E. J. Garrard was elected as mayor of the city, presiding officer of the council for another year. Garrard completed a one-year term. The council voted by secret ballot, with the result that Garrard received six votes and Councilman O. R. Ludewig three.

The council last evening took up the matter of making arrangements with an agent for the towing out to sea of the local rafts. The San Pablo Quartermaster, which has allowed the rafts to be dumped on its land on the cutter, has been ordered by the council that hereafter a new dumping ground must be found.

C. G. Gerlach, newly-elected member of the council, took their places at the meeting last evening. According to J. F. Felt, who has served nine years, and B. B. Willis, who served six years. Following the council session a banquet to the retiring officials was served at Hotel Lombard with City Attorney D. J. Hall as toastmaster.

Southey A. Odell, Daniel Barton and E. J. Hasey filed petitions to be named as police judge to succeed William Lindner in action.

Lindner has announced that he will eventually give up his post but that he will continue to act as police judge until he is appointed.

Joseph L. Gularie and Frank Meador applied to be named as chief of police. They were referred to Chief of Police Charles H. Wainwright, who is to make the appointment.

LE ROY STREETS AGREE TO STREET EXTENSION

SAN LEANDRO, July 7.—Papers signed by members of the Le Roy family agreeing to the cutting through of their estate for the extension of S'ville avenue are on their way here from Paris. After long delay the question of a right of way through the estate has been settled and it only requires the signatures of the Le Roy estate heirs, no win Paris for the work of extension to be commenced. S'ville avenue will be cut through the estate and will open up a large territory.

Other street work now under way includes the macadamizing of Dutton avenue for a mile in length and the macadamizing of Harrison street.

WILL ATTEND ENCAMPMENT

ALAMEDA, July 7.—First Lieutenant Foster Miles and Second Lieutenant Lester Southern of the Alameda High School Cadet Corps will attend the military encampment to be held at the Presidio from July 10 to August 15. The young men will receive military instruction from army officers which will make them more competent in the cadet work at school next term.

NEWS NOTES FROM CAPITAL OF STATE

SACRAMENTO, July 7.—Bids of 45 California contracting firms have been opened by the State Highway commission on five contracts for the construction of 25.9 miles in the counties of Tehama, Glenn, Contra Costa and Tuolumne. The total cost of the labor, according to the lowest bid offered, will be \$150,975.88 and the cost of the material will be \$104,754.32, a total of \$255,730.20, an average of \$7520 per mile.

SACRAMENTO, July 7.—Two officials of the fish and game commission and one from the adjacent general's office are up in arms against the Hotel Tallace resort. The game officials spent two nights at the hotel each and one meal. The bill rendered was for \$12.50 and \$15.50.

The militia officer took seven men to Tallace, one eating four meals, the other six one, and all sleeping on cots one night. His bill was \$84.

As the board of control allows a maximum of \$1 a meal, somebody is going to be out some money.

SACRAMENTO, July 7.—Edgar Williams, president of the civil service commission, intends to take up his residence in Sacramento soon. Believing that the head of the commission should reside at the seat of the State government, Williams is arranging his business affairs in such shape that he may move to the city.

SACRAMENTO, July 7.—Arguing that cities and counties should be permitted to invest in properties on the same basis as private corporations, Senator Herbert C. Jones of the 25th district, filed with Secretary of State Jordan yesterday his argument in favor of constitutional amendment No. 27. The amendment proposes to give the State, cities and counties the right to "take for public purposes not only such property as may be necessary for present needs, but also such as may be required for future use."

SACRAMENTO, July 7.—Los Angeles county is retaining Portland cement and other materials on an option handed down by Attorney General Webb. It is not necessary for the county to accompany its order with a check, as the county has a check. This gives the county a considerable advantage over its competitors. The matter came up on a bid for 50,000 barrels of cement which Los Angeles county is to deliver to Kern county for use in highway work.

The Bois d'Ailly, which witnessed some of the heaviest fighting during the recent French advance around St. Mihiel, is about two miles to the southeast of that town and near the village of Ailly. The wood lies at the northwestern extremity of the forest of Apremont, straddling a height of which the southern slopes descend rapidly toward a tavern. The Germans held an angular spur, including the outskirts of the wood on the lower part of the slope. The French trenches, following the ravine, went up the upbroken path of the hill on the border of the wood until about half way up the slope. In the spur the Germans had organized a very strong entrenchment, christened by the French "The Fort." Into the wood itself their trenches went in three lines, one above the other, communicating with their rear by saps.

All this position is now in French hands. The troops which carried it are soldiers who are calm and patient at their work and remarkable equally for their ardor and their sangfroid. The success is due to the military valor of these regiments, to the power of the means and material at the service of the French, and to the careful preparations for the attack.

Dry U. S., \$1,000,000 for Missions, Slogan

By Associated Press.

CHICAGO, July 7.—"Get a million new members and \$1,000,000 for missions" is the slogan of the twenty-seventh International Christian Endeavor Convention, which opened here today.

The call for millions was the subject of an address which was to have been read by the Rev. Francis E. Clark, president and founder of the society. He was unable to be present, however, because of illness.

Delegates were urged to enroll a million new members, a million signatures to a peace petition and a million pledges to make the country a saloonless nation by 1920.

SOUTHERLAND UNABLE TO APPEAR IN COURT

Arthur A. Southernland, who was shot twice by Patrolman Richard Lohsen while menacing him with a revolver last Sunday night, is still confined to a bed in the emergency hospital, and was unable to appear in the police court for arraignment today. His case was continued to tomorrow morning, when he will appear before Judge L. R. Weinmann of Alameda, sitting for Police Judge Mortimer Smith.

Southernland was placed under arrest last night with two charges of assaults to commit murder lodged against him. One is preferred by his wife and the other by Patrolman Lohsen. It was while Southernland was menacing his wife on Sunday night that Lohsen was called to the house at 1705 Kirkham street. Southernland turned a revolver on the officer and fired at him. Lohsen then shot him twice, one bullet striking Southernland in the abdomen and the other in the thigh.

SPOUSE ROBBED AND BEATEN, WIFE REPORTS

William Craig notified the police, through his wife, that he had been held up, beaten and robbed near the Western Power plant at the foot of Sixth avenue, while on his way to his home, 1416 Twentieth avenue. Mrs. Craig reported that a gold watch and chain, a bank book and a woman's purse containing \$36 had been stolen from her husband.

John Silva, 551 Center street, reported that he was knocked down and robbed in his residence by a roomer, who stole a small amount of silver. The police are investigating the case.

DARKEN GRAY HAIR, LOOK YOUNG

Gray Hair Changed to an Even Dark Shade—No Dye.

You can easily turn your gray, faded or streaked with gray hair beautifully dark and lustrous almost overnight if you'll apply a few times, Q-Ban Hair Color Restorer to hair and scalp like a shampoo. Q-Ban is harmless, not sticky, delightful to use and darkens all your gray hair so naturally and evenly that no one can tell it has been applied. Q-Ban acts on the roots, makes hair and scalp healthy, changing gray hair and entire head of hair to that soft, even dark luster, fluffiness, beauty and abundance which makes the hair so fascinating and attractive, besides preventing dandruff, itching scalp and falling hair. Try at our risk—guaranteed. Only 50c for a big 7-oz. bottle at Normal Pharmacy, Eighth and Washington streets, Oakland, Cal. (Phone Oak 2559). Out-of-town (orders supplied by parcel post. Call or write asking for Q-Ban Hair Color Restorer.—Advertisement.

Divorced Couple Are Sued by Dressmaker

SAN FRANCISCO, July 7.—Chester Miller Martin, son of Joseph Martin, president of the National Ice company, and his divorced wife, Maude Elise Martin, stepdaughter of J. B. Treadwell, former wealthy mine owner, appeared as defendants today before Superior Judge Shortall in connection with a dressmaking bill, which Madam L. G. Potts of Los Angeles declared herself unable to collect. The amount alleged due is \$923.95, and gowns and dresses formed the items on the invoice.

MINER FOUND DEAD.

KENNETT, July 7.—Riley B. Mann, a miner who came to Kennett thirty years ago, was found sitting dead in a chair in his cabin on Squaw creek. The discovery was made by his neighbor, Frank Cox. He had suffered a mild stroke of apoplexy. No relatives are left in this state. The pioneer was 81 years old.

Freed on Confession of Woman Firebug

SAN FRANCISCO, July 7.—Jacob Denier, 40, Frutvale, arrested in connection with Pearl Rollins as a suspected "fire bug" following attempts to burn down one saloon and threats to destroy another, was released this morning when the woman made a full confession to Captain of Detectives Patrick Shea. A grudge against a man named Taylor, whom she avers had hurt her in a way which she does not detail, was responsible for the alleged arson plot. This morning the woman voluntarily gave the details of the attempt to fire Murphy Brothers' saloon at California and Fillmore street, on July 2. She admitted also the authorship of the letters in which she threatened to destroy the saloon of Bord & Smith at Fillmore and McAllister streets.

Despite her confession the woman has not yet been charged. She informed the police that her full name is Pearl Rollins Nielsen. Her husband John Nielsen, is street.

Port Officials Hold Contraband Cargo

By Associated Press.

HOOQUIAM, Wash., July 7.—The discharge of the cargo of the Annie Larsen, the schooner which put in here last week, loaded with munitions of war, started today under the direction of a deputy customs collector. It will be stored in a warehouse here until the government decides what disposition it will make of it, or until the case is settled.

Since the escape of Walter Page, the super-cargo of the vessel yesterday, no effort has been made to find him. Government officials had found no specific charge against him and had determined to release him Monday afternoon.

The government's investigation of the status of the vessel and her actions before putting in here will be continued.

employed in a Market street cafe. She declared she had been married for seven years and that she resided at 7313 Bush street. Her husband John Nielsen, is street.

GREATEST CHORUS TO SING 'MESSIAH'

Welsh Musical Festival in S. F.
to Close With Superb Handel Oratorio.

The greatest chorus which has yet been assembled in the bay communities will be heard in a festival performance of Handel's "The Messiah," at the Civic Auditorium in San Francisco the last week in July. This will be the closing event of the great Welsh musical festival which is to be held in San Francisco during that week. For the Messiah combination of the various singing societies from all over the country which will be in attendance at the festival will be effected. It is expected that the chorus membership will reach the number of at least one thousand voices for this great occasion.

Alexander Stewart has been chosen as the director of this great chorus. Choruses will be drilled by Mr. Stewart on both sides of the bay. The Alameda County 1915 Chorus of four hundred voices will form the nucleus of a great chorus from Alameda county and will rehearse on Tuesday evenings commencing July 13. A San Francisco chorus recruited largely from the Exposition chorus which sang at Festival Hall in St. Sae's "The Promised Land," will be drilled in San Francisco by Mr. Stewart Thursday evenings commencing July 8 at the Civic Auditorium.

Singers who are more or less familiar with the Messiah and who desire to join this chorus may do so without expense by applying at the office of the Welsh Festival Association at the Civic Auditorium or to Mr. Roy C. Brown, secretary of the chorus at the rehearsal. As it is quite impossible to secure sufficient copies of "The Messiah" for so large a chorus, singers are asked to bring their own copies to the rehearsal. A great symphony orchestra and noted soloists will be engaged for this production.

Officials Seeking Ship Passenger

Along the whole coast search is being made by federal officers for Walter H. Page, super-cargo of the Annie Larsen, held at Hoquiam on the supposition that it might be a filibusterer. The real destination and purpose of the munitions aboard the Annie Larsen is being probed by the U. S. Coast Guard. The identity of persons behind the venture and whether Page were one of these.

An effort to identify him with Fred Jensen and to detect the Annie Larsen with the Maverick has been so far in vain. The latter vessel is the one which the Annie Larsen was to have met off the Mexican coast and to have received the Annie Larsen's cargo. The Annie Larsen was stopped at Hoquiam and failed to keep her trust. Jensen is said to have disappeared from the San Francisco waterfront about the time the Annie Larsen left. Page has not been seen by the officials since that vessel was taken.

GARRETT PLATT PASSES TO GREAT BEYOND

The body of Garrett Platt, who died at the Union Printers' Home in Colorado Springs Saturday morning, arrived in this city last night over the Western Pacific. Mr. Platt had been in ill health for a long while and sought relief about a year ago in the balmy air of Colorado. He began falling rapidly last week and his mother, Mrs. Little Platt, was telegraphed for and arrived at the bedside in time to witness the sad end of her son, who was considerably the last and best of his kind. He was a native of the West and a man of good will to workers on The Tribune, where Mr. Platt served his apprenticeship at the printing business.

Mr. Platt was a favorite among the boys of his craft and his wit had always been the subject of much merriment. He is survived by two brothers, Earl and Raymond Platt and his mother, Mrs. Little Platt and was a native of Oakland, aged 35 years.

The funeral services will be held from the parlors of E. J. Finney, Eighteenth and Telegraph avenue, tomorrow afternoon under the auspices of Oakland Typographical Union No. 26.

The Emporium SAN FRANCISCO IMPORTANT PURCHASE OF 15,000 Yards of All-Wool Dress Materials

All the Up-to-Date Weaves, such as:

EPINGLES,	SHARKSKIN,	PAILLETTE,	POINTIELLE,
SOUFFLE,	WAFFLE,	MATELASSE,	
BEDFORD CORD,	WHIPCORD,	COTELE,	ARMOURE,
DIAGONAL MELANGE,	BELGIAN VIGOREUX,	PALM BEACH CLOTH,	ETC., ETC., ETC.

All the Fashionable Colors:

BROWNS,	BLACK,	NAVY,	COPENHAGEN,

MOTORCYCLE RECORD BROKEN.
COLUMBIA, Ohio, July 7.—Jim Davis of this city broke the world's motorcycle record for 100 miles on a dirt track today, Monday, by averaging 42.4 miles an hour. The record was set at the Columbus fairgrounds. Davis, 23, of the Columbus, Ohio, Police Department, was riding a 1914 Harley Davidson motorcycle. He was accompanied by a friend, and a crowd of spectators gathered to watch the race. Davis completed the 100-mile race in 2 hours, 23 minutes and 45 seconds. The previous record was held by a Frenchman, who averaged 41.5 miles an hour. Davis's record was set on a 100-mile course that was laid out on a dirt track. The track was 100 feet wide and 100 feet long. Davis's motorcycle was a 1914 Harley Davidson, which was built in 1914. The motorcycle was in excellent condition and was well-maintained. Davis was a professional motorcycle racer and had won many races before. He was a member of the Columbus Police Department and was known for his skill and speed. The race was held at the Columbus fairgrounds, which is a large outdoor arena. The race was watched by a large crowd of spectators, who were all excited to see Davis break the world record. The race was a great success and Davis was celebrated as a hero. The record was set on a 100-mile course that was laid out on a dirt track. The track was 100 feet wide and 100 feet long. in Alameda County.

the county and the state farming organizations, and the most important of these is the fact that the program is as close to the ground as possible. It is the farmers' and county adviser program designed to help bring this about," said C. W. Rubel, who has taken up this month's assignment in the county office. Place of W. H. Nixon, who resigned. For about ten years Farm Adviser Rubel has been head of the agricultural department of the county. He graduated from the University of California at San Luis Obispo.

For the past week he has been somewhat busy in the county by Nixon and is greatly impressed with the agricultural situation. In his opinion Alameda county has remarkably rich and varied soil and there is a big field for the work of the farm advisers. The farm bureau can help the farmers increase the productivity of their land it will be of benefit not only to the agricultural communities, but to the county as a whole. The county farm advisers are links between the Department of Agriculture at Washington and the agricultural department at the University and the farmer.

Rubel was introduced to the members of the Hayward Center of the Alameda County Farm Bureau at a meeting in

the future were discussed. Nixon will leave July 15 to take charge of a large orange ranch near Riverside and until then will take the new adviser around

FOREST FIRES THREATEN TO DESTROY LICK OBSERVATORY

VOLUNTEERS CHECK BIG BLAZE

SAN JOSE, June 7.—A volunteer force headed by forest rangers fought desperately last night to save the Lick Observatory on the slopes of Mount Hamilton from destruction by fire. It was only after an all night fight against odds that the fire fighters finally succeeded in checking the flames, which burned over an area of several acres of the timber and underbrush which cover the slopes of the mountain.

POLICE ROW SEQUEL OF A FAMILY ROW

A small riot occurred at 2 o'clock this morning in a Greek coffee house at 424 Eighth street, following a "party" which was enjoyed by John Pappas, Mrs. Pappas, and Angelo Pappas. The trouble started when the morning paper arrived which Mrs. Pappas started to read. Pappas told her to go and entertain her friends and a fight ensued.

WOMAN FIRES REVOLVER AT FLEEING BURGLAR

Hearing a noise in the front part of her house shortly after 10 o'clock last night, Mrs. J. S. Leal, 1025 Russell street, in Stonehurst, ran to her room, where she obtained a revolver and fired several shots at a man who attempted to break into the house. Mrs. Leal heard the man climb from the front window and scramble on the porch. She fired a shot through the front door and when she heard him follow her out into the street, she emptied her revolver at the fleeing burglar as he dodged across the street and ran across a field. The man made good his escape.

CONFIRMS FORECLOSURE ORDER

WOODSTOCK, Vt., July 7.—A petition to vacate the decree of the Federal court ordering the foreclosure sale of the Wabash railroad was denied today by United States Circuit Judge Elmer Adams of St. Louis, after a hearing at his summer home here. The sale will take place on July 21.

Double Vision Glasses Used at Front

Constant Enemy Observed and Dispatches Read With Same Pair of Glasses. This can be done readily without changing glasses if the new patented "Caltex Onepiece" Bifocals are worn. These wonderful lenses are made from a single piece of clear optically perfect glass and combine both reading and distance glasses in one lens. You can look off at a distance and then down at your letter or book without any discomfort whatsoever. It is not necessary to wear two pairs of glasses if you wear "Caltex Onepiece" Bifocals. Grounds only at the three establishments of the California Optical Co., 1221 Broadway, Oakland; 181 Post St., 2503 Mission St., San Francisco. On prescription these lenses can be supplied your friends at the front.—Advertisement.

'PERSECUTED,' ACCUSED POLICEMAN CHARGES; CHIEF WOODS DEMANDS CIVIL SERVICE BOARD REOPEN CASE

Charges that he had been made a victim of persecution on the part of his superior officers were made by Patrolman C. D. Deardorff before the civil service board last night when he appealed from the order of F. C. Turner, former commissioner of public health and safety, firing him one month's pay while he was under suspension pending the hearing of the charges.

Deardorff had been charged with conducting unbecomingly an officer and a gentleman in connection with allegations made by Miss Ruth Kerns. The charges connected with the Kerns girl were dismissed by Turner, but Deardorff was fired a month's pay for disobeying an order communicated to him by Captain J. F. Lynch, then acting chief, to report to Commissioner Turner.

Chief Woods action. "This man has been charged with an infamous offense," said Chief Woods. "I should like to reopen the whole case, and not merely the matter of technical disobedience to orders. If he is guilty of the charge in connection with this young woman, he should not be fired, but dismissed from the force."

540 Convicts Attend School

San Quentin Warden Asks for Text Books. By Associated Press. SACRAMENTO, July 7.—Warden Johnson worked all day yesterday, making out requisitions for free state text books, according to his requisition filed with Superintendent of Public Instruction Hyatt. He calls for 1475 books for the students among the 2000 odd convicts in San Quentin.

MINORITY ONLY AT MEETING OF TRUSTEES

SAN LEANDRO, July 7.—The vacation period has so much interfered with the work of the town board that no meeting could be held last evening. Several of the trustees are at the seashore and in the mountains and only a faithful two, Mayor J. H. Gill, who is always on the job, and Trustee H. Reichert were present last night along with City Clerk W. J. Cannon. Without a quorum the business was carried on until next meeting.

LID PLACED ON BARBARY COAST

SAN FRANCISCO, July 7.—Once more the lights of the Barbary Coast have been dimmed. Eighteen months ago the famous Pacific street, with its dives, dance halls and reputed dens of vice, was supposed to have been closed.

INDIANAPOLIS MEN ADMIT FRAUD

By Associated Press. INDIANAPOLIS, July 7.—Seven of the 137 men who are facing charges of election frauds in the registration, primary and election of 1914 pleaded guilty when arraigned here today.

OAKLAND WIFE TO CHARGE GODFREY

Former Alma Sittman Will Swear to Complaint Against Confessed Bigamist. After a conference in Fresno with Henry Hawson, assistant district attorney, over the plight of her supposed husband, W. H. Godfrey, now held in the Fresno jail on a temporary charge to which he has confessed, Mrs. Godfrey No. 2 today returned to her Oakland home.

LICENSE GRANTED DESPITE PROTEST MILLER ON SEARCH OLD HISTORY IS RECITED IN SUIT

Council Hears Protestants, But Permits Fourteenth Street Saloon.

The city council today granted a liquor license for a restaurant with a bar to be located at 4591 East Fourteenth street to Pierre Laskie and Pierre Chaud. Strenuous protest made by residents to another saloon being permitted in this neighborhood was given a hearing before the council today. The Rev. Britton Ross headed a delegation of protestants against the license.

Chief of Police W. F. Woods presented a report in which he stated that he had reviewed the protest and had found that there were only 27 actual signatures within the 500 feet limit and that five of these had requested permission to withdraw their names. He recommended in favor of granting the permit.

Commissioner W. H. Edwards asked what power the council would have to revoke the license again if the place was not conducted in an orderly manner, as the proposed location is in the so-called "wet" zone.

"The police could recommend the revocation of this license if the place was not being conducted in an orderly manner," explained Attorney Pierre A. Fontaine, representing the saloon. "It would not take five minutes to revoke the license."

"No, all it would take would be the votes," suggested Commissioner W. J. Baccus, with recollections of many a split council on previous saloon fights.

"ACTED IN GOOD FAITH."

"The people who have misinterpreted this license," declared the Rev. Ross. "We have been making a hard fight for a clean district. We have 35 signers to this petition inside the district and 100 outside the limit. The ladies who circulated this petition are here today to tell you that they got these signatures in good faith."

Among the women present in the council chamber were Mrs. E. E. McEach, 1225 Walker avenue; Mrs. C. Wilcox, 1828 Rosedale avenue; and Mrs. W. O. Stone, 1425 High street.

Commissioner F. F. Jackson turned to the Rev. Ross just before the vote was taken and asked:

"You would be in favor of abolishing all the saloons, would you not?"

"Yes, I would," declared the Rev. Ross.

A vote was taken and the application was granted by a majority action. The license was granted in a transfer from a location at 776 Fruitvale avenue.

Permission was granted to Patrolman Harry W. Teeple to obtain leave of absence for six months with permission to leave the state. The leave was granted without pay. Teeple is going on a trip East.

A resolution was passed granting to James F. Peck and others permission to withdraw a petition against the closing and abandoning of portions of Alma avenue, Hopkins street, Excelsior avenue, East Thirtieth street, Jones street, Prospect avenue and Clinton street.

A resolution was passed granting to the Hutchinson company sixty days' extension of time to complete the improvement of Fruitvale avenue between Fruitvale and Peralt.

Makes Quiet Investigation of Conditions in Street Department.

Montgomery K. Miller who is slated for the position of chief municipal engineer, to be created by an ordinance of the city council, has been conducting a quiet investigation of conditions in the street department. The ordinance creating the position will come up for final passage the end of this week and a request will be made to the civil service board next Tuesday for permission to make an emergency appointment of Miller to this place.

The ordinance provides that Miller's duties shall consist in investigating all places of employment of city engineer, assistant city engineer, superintendent of streets, harbor engineer and similar employments, with a view to consolidating and re-organizing these offices in the interest of greater efficiency and economy. It is understood that Miller's activities will be directed in some part to finding just what justification there might be for the removal of Perry F. Brown from the position of superintendent of streets and ex-officio city engineer. Brown has been in charge of the street department under Commissioner W. J. Baccus, and has been given a free hand in the affairs of his office. Baccus has declared repeatedly that he would not permit the dismissal of Brown so long as he was commissioner of streets.

Prior to election, Miller was announced to have been slated for Brown's job. The creation of the position of chief municipal engineer with powers of investigating and recommending the re-organization of these offices, is considered a preliminary step toward the removal of Brown.

Miller announced today that he had unearthed indications of inefficiency and extravagance in the street department. He said that the improvements on the Twelfth-street dam, which are costing the city under contract \$15,000, should have been done for less than half that amount.

He also declared that macadam which should have worn for several years on several streets in the city, is already in disrepair, although it was only laid down a short time ago.

Former Utah College Head Testifies in Eccles' Fight for Estate.

By Associated Press.

CORUN, Ill., July 7.—Dr. J. M. Tanner, formerly president of the Utah Agricultural College at Logan and former superintendent of the Mormon Church schools, testified yesterday in the case of Albert Eccles or Eccles, 18 years old, against the David Eccles estate, the suit by which the boy is endeavoring to establish that he is a son of David Eccles and entitled to over-thirty-third of property valued at over \$5,000,000.

Dr. Tanner said that during discussions as to a biography he was to write for David Eccles, the latter frequently mentioned Mrs. Margaret Geddes and her son.

The witness said that he had a talk with David Eccles shortly before the United States senatorial investigation as to polygamy, in which Eccles had asked him if it was true that Mrs. Geddes might be excused from being a witness on the ground that she was a Mormon herself. He said that Eccles also asked if the committee would require that the boy be taken to Washington and exhibited and that he (Tanner) told him he thought the committee would and asked, "Does he look like you?" The Oregon financier said: "They say so."

"Questions as to whether Dr. Tanner believed in plural marriages, whether he has plural wives, whether he was practicing polygamy at the time he talked to Eccles in 1905, whether he had been a family in Canada and in Salt Lake, what his standing is in the Mormon church, whether he was dropped from official positions in the church and why he ceased his connection with the Mormon church, whether he was dropped from official positions in the church and why he ceased his connection with the Mormon church were asked. The court ruled that the witness could not be required to answer these, Dr. Tanner claiming exemption under a state law which provides that a witness need not answer any question that might incriminate himself or might be derogatory to his character.

NEW DEPARTMENT IN HEALTH BOARD

Professor Hyde Made Expert of State Sanitary Engineering Work.

SACRAMENTO, July 7.—At a meeting of the state board of health held in Sacramento the board considered the problem of Juan Rivera, a wandering leper who escaped from the Los Angeles county hospital and whose commitments have been renewed more than a year. He has again escaped from the hospital and has appeared in Fresno, after alarming the residents of Visalia.

It was learned from the superintendent of the Los Angeles county hospital that Rivera last escaped from that institution on April 21, 1915, and that it has taken him more than two months to reach Fresno. The patient is being quarantined by the Fresno authorities, which is considered necessary until Los Angeles can complete arrangements for his proper care.

The organization of the department of sanitary engineering was effected and Professor M. E. Hyde of the University of California was appointed consulting engineer for one year. Chester G. Gillespie was appointed chief engineer of the department and will begin its official career in August and will at once proceed with the investigation of the typhoid fever problem.

Professor M. E. Hyde of the University of California was appointed consulting engineer for one year. Chester G. Gillespie was appointed chief engineer of the department and will begin its official career in August and will at once proceed with the investigation of the typhoid fever problem.

Professor W. B. Herms of the University of California was appointed consulting parasitologist of the board of health. Professor Herms is a prominent authority on malaria and the malarial mosquito and his services are desired in the campaign against that disease.

The enforcement of the law regarding the prevention of blindness in infants was referred to Edward F. Glass as a special committee. It is anticipated that the provisions of this law will greatly reduce the percentage of preventable blindness.

A diphtheria carrier was allowed to return to Washington from San Francisco under the regulations of the state board of health provided in such instances.

Twenty-one violations of the pure food and drug laws were considered by the board.

MANY SAVED FROM HUNGER BY CITY

Municipality Furnished 35,681 Meals and 13,638 Lodgings During Winter.

By furnishing 35,681 meals and 13,638 lodgings, the city of Oakland during the past winter spared hundreds of thousands of dollars of the city's income from the hands of the unemployed. This city also gave employment to 575 men with families. As a result of like action by other cities in the state, over 100,000 men were directly or indirectly aided, according to a report of the Commission of Housing and Immigration made public yesterday.

The report states that most of the 100,000 men benefited during the winter months, received work at a time when the resources were exhausted. The report further declared that the majority of the unemployed, resident and transient, fought to maintain their respect by persistently refusing charity. The report set forth the work done by some of the cities of the state in obtaining work.

San Francisco gave 6256 unmarried men meals and lodgings in exchange for work in the municipal woodyard, 1932 men with families were given relief work, including 4149 women and children. Alameda secured temporary employment for 100 men and permanent places for three.

Sacramento was one of the few cities of the state that made no effort to aid the army of unemployed.

Los Angeles declared it was not confronted with the unemployment problem and refused co-operation with the commission. Much good was done there as a result of the free industrial employment bureau. The commission estimates that Los Angeles has between 5000 and 7000 wandering and homeless men.

BRYAN TALKS AT S. F. CIVIC CENTER

Spends Afternoon Visiting the Exposition; Guest of Peace Congress Tonight.

SAN FRANCISCO, July 7.—William Jennings Bryan, former secretary of state, was up for an early breakfast today. This is the first day since his coming when he has no set speech arranged. He talked at the Civic Center luncheon at noon, to which he was invited and which he attended. His remarks, however, were extemporaneous and he spoke in an intimate manner quite pleasing to the gathering.

This afternoon, accompanied by Mrs. Bryan, the former secretary spends visiting the foreign pavilions on the exposition grounds and in general sight-seeing. Tonight he is to be entertained by the Woman's Peace Congress at a dinner at Old Faithful Inn.

ASK FOR RECEIVER

CLEVELAND, O., July 7.—Attorneys who for five years have been fighting in the federal court, to compel the Northwestern Mutual Life Insurance Company of Milwaukee, Wis., to render an accounting of its entire fund, created to pay annual dividends to holders of tentative policies, today in the federal court filed an amended petition in behalf of policyholders asking that an injunction be granted and that a receiver be appointed for the fund.

Don't Poison Baby. FORTY YEARS AGO almost every mother thought her child must have PAREGORIC or laudanum to make it sleep. These drugs will produce sleep, and A FEW DROPS TOO MANY will produce the SLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is: "A medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death." The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children without you or your physician know of what it is composed. CASTORIA DOES NOT CONTAIN NARCOTICS, if it bears the signature of Chas. H. Fletcher.

Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. J. W. Dinwale, of Chicago, Ill., says: "I use your Castoria and advise its use in all families where there are children."

Dr. Alexander B. Mintie, of Cleveland, Ohio, says: "I have frequently prescribed your Castoria and have found it a reliable and pleasant remedy for children."

Dr. Agnes V. Sweetland, of Omaha, Nebr., says: "Your Castoria is the best remedy in the world for children and the only one I use and recommend."

Dr. J. A. McClellan, of Buffalo, N. Y., says: "I have frequently prescribed your Castoria for children and always got good results. In fact I use Castoria for my own children."

Dr. J. W. Allen, of St. Louis, Mo., says: "I heartily endorse your Castoria. I have frequently prescribed it in my medical practice, and have always found it to do all that is claimed for it."

Dr. C. H. Gilden, of St. Paul, Minn., says: "My experience as a practitioner with your Castoria has been highly satisfactory, and I consider it an excellent remedy for the young."

Dr. E. D. Benner, of Philadelphia, Pa., says: "I have used your Castoria as a purgative in the cases of children for years past with the most happy effect, and fully endorse it as a safe remedy."

Dr. J. A. Boorman, of Kansas City, Mo., says: "Your Castoria is a splendid remedy for children, known the world over. I use it in my practice and have no hesitancy in recommending it for the complaints of infants and children."

Dr. J. J. Mackay, of Brooklyn, N. Y., says: "I consider your Castoria an excellent preparation for children, being composed of reliable medicines and pleasant to the taste. A good remedy for all disturbances of the digestive organs."

DENIED TRUSTEESHIP IN PETER B. SMITH ESTATE

By Associated Press.

PORTLAND, Ore., July 7.—The United States District court ruled that Mrs. Elizabeth Price of Minneapolis is not entitled to a trusteeship in any part of the estate of her stepfather, the late Peter B. Smith, of that city. Mrs. Price sued Mrs. Guy L. Wallace of Portland, wife of Mr. Smith at the time of his death, and to whom he left his entire fortune, to force trusteeship. Mrs. Price claimed two-thirds interest in the estate. Her share she estimated at \$100,000.

MT. LASSEN ERUPTING FROM SEVEN FISSURES

By Associated Press.

REDDING, July 7.—Alexander Thatcher of Redding returned yesterday from Lassen peak and reported a split in the northern rim of the crater three-eighths of a mile in extent. From seven points in the fissure smoke and steam escaped, but the main crater was closed. All of the eruptions of the last two weeks have been from this new split, according to Thatcher.

PRISONER IN FIGHT WITH SHERIFF ON CAR

SAN FRANCISCO, July 7.—Several men and women were bruised and cut last night in a Kearny street car and all of the occupants were thrown into a panic when Frank Taylor, six feet four inches in height and built in proportion, attempted to escape from Under-Sheriff J. J. Madden, who was returning him to the County Jail, from which he escaped ten days ago.

Taylor was one of the men who, ten days ago, made good their escape from the county jail and had an alleged record of thirteen hold-ups in the Richmond district, for which he was awaiting trial when he took French leave and wended his way to a ranch beyond Stockton, where he has been working.

HILL LINES WILL NOT BUY WESTERN PACIFIC

PORTLAND, Ore., July 7.—Returning from a visit to his summer home on Puget Sound, President L. C. Gilman of the Great Northern Pacific Steamship Company, disposed of the rumors that the Hill railway interests, which, with the Northern Pacific, own the steamship line, are negotiating to buy the Western Pacific Railway from the receivers and that the steamer line would transfer its northern port from Flavel to Seattle. As to the transfer of the steamer's northern port to Seattle it would mean a counter to the Federal law and the decrees of the Interstate Commerce Commission.

REORGANIZATION PLANS FOR ROAD ARE MADE

NEW YORK, July 7.—The plan for readjusting the capital and debt of the Missouri Pacific Railway Company and the St. Louis, Iron Mountain and Southern Railway Company was issued today. It is announced that the plan must be made to meet obligations for the next five and a half years, amounting to \$79,269,000.

It is the intention to leave undisturbed certain of the securities in the present capitalization amounting to \$157,155,000. It is proposed also to pay in cash the \$24,345,000 5 per cent notes on or before June 1, 1916, and equipment obligation of \$3,851,000 maturing between June 30 last and June 30, 1915.

"MINERS' HOME" BURNS; TWO MEN LOSE LIVES

By Associated Press.

WALLACE, Idaho, July 7.—Fire last night destroyed a lodging house and a saloon known as the Miners' Home, killing two men, Charles Smith and Joe Smith, and burning the building to the ground in four days, with losses totaling \$115,000.
